## RBGH IN DAIRY PRODUCTS & CANCER

Dear Dr. Henney:

As a Congregation of women devoted to the care of the poor and the sick, we are very aware of the increase in cancer, especially among women, due to carcinogens in our food, water and air.

Therefore, we urge you to stop Monsanto from selling rBGH until tests have adequately proven its safety. We will also be writing to our Senators asking for their action and urging our members to drink milk that is certified not to contain rBGH.

We would appreciate a response from you and we assure you of our prayers for your efforts re food and drug safety.

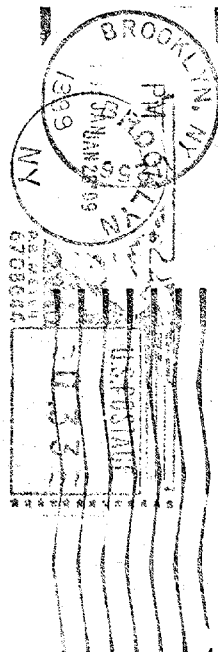

Sincerely,

*Sister Bernadette Sullivan, SFP*
